

2018-2019 Preschool Screening Manhattan School District #114 815-478-4527

Manhattan School District will be screening children from ages three to five in the areas of motor, cognitive, and speech and language development. All children three to five years of age who reside in Manhattan School District boundaries are eligible to be screened free of charge.

Preschool Screening is designed to identify preschoolers who show delays or problems in speech and language skills, large and small muscle coordination skills, cognitive skills, or social emotional growth.

Staff will determine the necessity, if any, for further individual evaluation that would assist in the identification of the need for special education services. **An adult must accompany each individual being screened.**

This is not a kindergarten readiness screening

Children who will be 5 years old after January 1, 2019 are not eligible for this screening. If your child will be attending kindergarten you should schedule an appointment for Kindergarten Screening in the spring, and note any concerns during that time.

Children under the age of 3 will be referred to Child and Family Connections in Joliet 815-730-2617.

All Screenings will be conducted at:

**Wilson Creek School
25440 S. Gougar Road
Manhattan, IL 60442**
