

Meeting the Needs of Special Education Students in Human Sexuality Education

March 15-16, 2018

Felmley Science Annex (FSA)

Room 222

Illinois State University

Normal, Illinois 61790-2200

Brought to you by Health Endeavors: Consulting and Training, LLC

Workshop Description

This 2-day workshop is a very interactive workshop in which we take the participants through the process of awareness about the importance of teaching human sexuality to students with various special needs and to how to teach the subject to students with various disabilities. Throughout the two days, we show how to modify and adapt teaching techniques to effectively teach human sexuality for various disabilities. The workshop is very interactive and we limit the number of participants to 40 because of the interactive activities. The workshop will be conducted by Dr. Darrel Lang who has successfully presented on human sexuality to over 40,000 school personnel throughout the United States and internationally.

Cost of the two-day workshop is just \$195.

Workshop Location:

Felmley Science Annex (FSA)

Room 222

Illinois State University

Normal, Illinois 61790-2200

Workshop Objectives

By the completion of the workshop, participants will be able to:

- (1) determine their “askability” when it comes to teaching human sexuality education,
- (2) explain the six-component model of human sexuality education,
- (3) identify various laws/regulations that apply to special populations,
- (4) demonstrate how to deal with resisters to human sexuality education and special populations,
- (5) demonstrate how to modify and adapt teaching techniques in human sexuality education that are successful with various special populations/disabilities.

Workshop Agenda Day 1 (9:00 am – 3:00 pm)
